

# *Rare Disease Day*

The National Junior Honor Society, is hosting a fundraiser for rare diseases, including *myofibrillar myopathy*. Myofibrillar myopathy is a rare disease normally found in people around 50 years and older. It is rare because as of 2004, there were only three recorded cases in children. Our very own, Gabriella DiSalvo of 8-1, was one of those three recorded cases. Please join us in raising money and awareness throughout the week of February 14 to February 21, 2018 for all rare diseases including myofibrillar myopathy. We will accept any amount in cash or a check. Please make all checks payable to "OLSS." All donations will be given to Global Genes Foundation. Everyone will receive a dress down on February 28th. Please dress in denim and purple and all will be given a denim ribbon to show support for this cause. Any amount is welcome. Thank you in advance for your generosity and support.
